

# Freedom Songs

## Interpretive Movement

Your teacher will assign you to a group and will assign a freedom song for your group to learn. After you have learned your freedom song, your group will discuss what secret messages could be conveyed by your freedom song.

As a group, decide on dance or dramatic movements to interpret this song as you sing it.

Put your dance steps and movements together in a sequence to interpret your freedom song.

Try to use different parts of your body and different motions, in creating these movements.

You may want to add some additional sounds besides the melody and words to highlight certain parts of your freedom song. *\*\*Clapping, tapping, shakers, bells, etc.*

Pay attention to the rhythm of the freedom song you are working with.

With your group, perform your dance for the class.
